Send Button

### Get a combined Like and Send button

You can implement the send button on its own, but if you also want a Like button on your site, you can simply add `send=true` as an attribute to the XFBML version of the Like button. This will render the Like button and Send button next to each other. Find the documentation on the Like button page.

### Get a Send button

URL to Send (?)

Font (?)

Color Scheme (?)

Get Code

↑ 任意のURLを入力。

Attributes

- href - the URL to send.
- font - the font to display in the button. Options: 'arial', 'lucida grande', 'tahoma', 'verdana', 'helvetica', 'arial black', 'cursive', 'serif', 'monospace', 'sans-serif', 'serif', 'monospace', 'sans-serif'
- colorscheme - the color scheme for the button. Options: 'light', 'dark'
